Financial Plan of Services and Budget for Fiscal Year 2026-27

This document provides the Board of Directors and its constituents with a practical guide for the fiscal side of District programs and services. Staff uses the budget to support each department mission, providing the public with transparent access to rates, fees, property taxes, assessments, and expenses.

To guide the Board of Directors and staff toward responsible capital expenses and prioritizing services, this Financial Plan for Services:

- Supports departments based on expenses in FY 2025-26, anticipating increased costs of developing water supply storage, chemicals, electricity, fuel, insurance, and staffing;
- Preserves expected revenues through sustainable department expenses;
- Continues mission-focused objectives within all departments;
- Maintains the seventh year of a transparent fiscal approach for ratepayers; and,
- Informs the decision-making of policymakers, the public and employees.

Township Services are the Key Focus of Department Missions

- | | |
|---|--|
| ■ Water collection, storage, treatment and distribution | ■ Parks and recreation facilities, including managing a golf course contractor |
| ■ Wastewater collection, treatment and disposal | ■ Community planning and development design coordination |
| ■ Fire prevention and suppression | ■ <i>Solid waste collection and disposal (contract for franchise fee collection)</i> |
| ■ Emergency medical and rescue – first response | |

Our committed staff execute department missions professionally and appropriately.

Personnel is Grouped by Department Units and Contracted Operations

- Utility Department (6.0 Full Time Employees [FTE])
- Fire Department (3 FTE, 1-2 seasonal, and ≤10 volunteers)
- Administration Department (4 FTE, 1 PTE, 5 elected directors and general counsel)
- *Golf Course Contractor* ■ *Solid Waste Franchisee* ■ *Contract Services (as needed)*

Board of Directors

**President Tina Tyler-O'Shea, Vice President Rick Williams
Director Ed Horrick, Director Susan Mahoney, Director Mary Ziady**

Department Budgets by Line Item

Department budgets track revenues from rates and fees, assessments, and other anticipated income sources. Expenses are identified by line item and can be divided into five categories: personnel; supplies and services; debt obligations; capital outlay; and, reserves. Line items fluctuate throughout the year, but staff is committed to retaining all department bottom lines at Fiscal Year-end. Departmental bottom lines may be altered by a Board-adopted budget amendment.

Line item expenses are grouped by department as follows:

- Utility Department
 - ❖ Water Collection, Storage, Treatment & Distribution
 - ❖ Sewage Collection & Disposal
- Fire Department
- Administration Department
 - ❖ General Government Services: Administration, Finance, & Planning
 - ❖ Parks and Recreation Facilities & Services

Notable Changes from Fiscal Year 2025-26

- Brooktrails' rainfall totals and surface runoff accounted for a good water supply year; lake levels remained sufficient for customer demands and customer usage remained steady. Multiple good water supply years make it important to educate customers on the finite nature of Brooktrails' water supply and future potential for drought, especially when a customer's usage is above the 9,000 gallons monthly maximum per connection. The coming fiscal year is starting dry and concerns about water supply and quality will be on the top of our minds as we move into the summer and fall.
- Capital Reserves are supported in the budgeting process and dedicated department reserves in the last six fiscal years have not been spent. Investments of reserves for administration, water, sewer and fire were deposited in FY 2024-25 into the CLASS investment account taking into consideration the liquidity and reinvestment options available for reserves to make as much interest as possible.
- The remodeled office building is complete and administrative staff is moved into the building. The mailbox and billing drop-off locations remain in the same place and customers have been generally receptive to the changes. An open house was held after the budget meeting on April 11, 2026.
- The Emergency Spring Creek Tank Replacement Project was completed without borrowing new debt and provides a long-term solution for water storage in that neighborhood.

- The Fire Department is staffed with a new Fire Chief for three full time firefighters and we may hire one-two seasonal employees during fire season. Medical aid calls and traffic collisions continue to be the primary first responder services. Special benefit assessment revenues that funded the metal building and third firefighter continue for the second year since its enactment. The Board did not increase the assessment by a COLA rate last year but will need to do so in the 2026-27 fiscal year.

- Proposition 172 funding from the county remained at decreased levels in FY 2025-26. Propositions D & E (transient oriented tax [TOT] collected for the county fire districts) and Measure P (the half cent sales tax that sunsetted in 2024 from Measure B, which is a general tax that the Board of Supervisors has allocated to county fire agencies with a ten-year sunset date), are being collected and distributed to the fire agencies. Fire department revenues are conservatively budgeted for these three, county-distributed sources even though Measure P is coming in higher than projected.

- The investment grade energy audit and the energy efficiency program projects associated with its findings did not successfully develop a system-wide program to reduce energy costs and increase efficiencies in District-owned facilities. Although many attempts were made to engineer a successful energy efficiency program, the inability to pencil out solar electrical generation to offset power directly from PG&E made the project infeasible. Several proposals for treatment plant improvements were discussed with the vendor and staff has included line items for some treatment plant improvements in this year's budget.

- The Brooktrails Water Reuse Planning Study was submitted to the state in November 2025 to leverage an application to the State of California to support grant funding to construct and implement a water reuse plant in Brooktrails. The District is looking for this project to be funded entirely by grants awarded to disadvantaged unincorporated communities.

- Budget Transparency and Usefulness – This budget document uses understandable language and a universal approach to fiscal health. It is designed and formatted to be straightforward and easily referenced.

The FY 2026-27 Special Budget Workshop was held Saturday, April 11, 2026. A Public Hearing to consider the Budget is set for June 9, 2026. Questions on the Financial Plan for Services should be directed to the General Manager at 707-459-2494 or btcsd@btcsd.org.

Utilities Department

The mission of the Utilities Department is to produce and distribute high quality drinking water and to collect wastewater from Brooktrails for treatment at the lowest possible cost, ensuring protection of the natural and built environment.

Water Department

The Township stores approximately 400 acre-feet of surface water in two reservoirs, fed by Willits Creek, Dutch Henry Creek and unnamed tributaries. Natural flow and Lake Emily diversions fill Lake Ada Rose before water is pumped to a Water Treatment Plant that can treat up to 1.2 million gallons per day. The distribution system includes the water treatment plant and backwash ponds, over 60 miles of water main lines, 18 pump stations, backup power sources, and 24 water tanks storing up to 1.9 million gallons of potable drinking water. Daily demand fluctuates by season and averages 240,000 gallons of drinking water to 1,557 metered connections.

This budget funds current and pending priorities of the water system based on rates adopted in July 2024. The design and daily operation of the treatment and distribution system meets or exceeds federal and state-enforced Safe Drinking Water Standards and meets the hydraulic demands of our diverse terrain during peak demand times. Providing water for fire protection generates additional demands on the system. The Water Department is funded by volumetric water rates (usage), a water reliability assessment, associated fees, and water base rate charges.

Utilities Department employees work as a team on water, sewer, and parks and recreation duties. Our newer utility team members are working on their certifications for water distribution, treatment, and Class A drivers licenses. The 6 FTE level of Utility Department staffing remains critical for supporting the department mission and operations continue to run smoothly.

Sewer Department

The Township operates and maintains three sewer lift stations and 65 miles of sewer main lines in its wastewater collection system. Wastewater is collected through a trunk line to the Wastewater Treatment Plant that is operated by the City of Willits. A smoke test of the wastewater collection system has located and removed unauthorized inflow to the system. Ongoing inspection and system jetting for infiltration from cracked pipes and ground movement persists, which reduces wastewater leaks. Staff conducts sewer lateral inspections when properties transfer ownership and appropriately as renters/tenants change.

This budget funds ongoing capital priorities to the wastewater collection system based on rates adopted in July 2024. Ongoing maintenance and routine operations are the plan for this fiscal year, with no capital projects anticipated.

The design and daily operation of the wastewater collection system meets or exceeds wastewater standards as enforced by the state and federal authorities. Department employees have wastewater collection certification as required by law. The Sewer Department is funded through sewer base rate charges, associated fees and a sewer reliability assessment.

Utilities Department employees work as a team on water, sewer, and parks and recreation duties. Newer utility team members are working on their certifications for water distribution, treatment, and Class A drivers licenses. The 6 FTE level of Utility Department staffing remains critical for supporting the department mission and operations continue to run smoothly.

Utilities Department Rate Revenues (Adopted in Resolution 2024-07)

These tables show how the base rate requirement is calculated after water usage assessments are included into the revenue and expense projections.

Calculation of Water Base Rate FY 2026-27	Total	Avg/Month
Total Budgeted Costs to Recover	\$ 1,668,231.00	\$ 137,061.73
Applied Water Availability Revenue	\$ 110,000.00	\$ 10,000.00
Applied Water Usage	\$ 470,493.07	\$ 39,157.42
Applied Other Revenue	\$ 29,000.00	\$ 583.33
Base Rate Needed	\$ 1,047,851.67	\$ 87,320.97
Base Rate Charged	\$ 1,048,788.97	\$ 87,399.08

Calculation of Sewer Base Rate FY 2026-27	Total	Avg/Month
Total Budgeted Costs to Recover	\$ 1,532,343.92	\$ 127,695.33
Applied Sewer Availability Revenue	\$ 220,000.00	\$ 18,333.33
Applied Other Revenue	\$ 23,000.00	\$ 1,916.67
Base Rate Needed	\$ 1,289,343.92	\$ 107,445.33
Base Rate Charged	\$ 1,290,000.00	\$ 107,500.00

	Water Department Capital Priorities	Sewer Department Capital Priorities	Fire Department Priorities	Parks and Recreation Priorities	Administration Priorities
2026-27	treatment plant pumps and pipes, Tank 2 replacement	lilac lift station, recycled water project	squad payment, 3 FTE, equipment replacement	increased property tax funding, park grant, golf course	utility rates study, recycled water project

Fire Department

The Fire Department provides fire suppression and first responder services over 7.3 square miles of forested and grass wildlands containing at least 1,700 structures. The department provides fire suppression for structures and wildlands in and around the Township; emergency medical response to persons injured or suffering from traumatic illness; emergency rescue to traffic accidents in rough terrain; and, mutual aid to the Mendocino County Office of Emergency Services (OES), CalFIRE and Little Lake Fire Protection District on incidents. The Brooktrails Community Emergency Response Team (CERT) was disbanded last year and their equipment was donated to the department.

The department is funded by the 1994 and 2014 special fire assessments; the 2023 Fire Protection and Emergency Response Services Assessment; Proposition 172, Measures D & E*, and Measure P* funds allocated by the county; strike team and equipment revenue from support to CalFire; and, donations.

*Measures D & E were passed by voters in March 2020, and commit transient occupancy tax (TOT) revenue to fire districts in Mendocino County. Measure P was passed by the voters of Mendocino County to support a General Services sales tax in November 2022, which the County Board of Supervisors has committed to fire agencies county-wide.

Finally, the special benefit assessment passed overwhelmingly by Brooktrails voters in 2023 provides additional funding for a third firefighter position and infrastructure construction. With support from 69% of voters, this assessment proved local support and commitment to fire safety in our community.

The department is staffed up with three FTE and the infrastructure approved by voters, has been built. The new Fire Chief is focused on training and staff development, helping to ensure that first responders are drilled regularly and prepared to respond in case of emergency.

The budgeted department line items are after the following page:

Parks and Recreation Division

Parks and Recreation is a division of the Administration Department Fund. Programs and services in this division enhance recreation experiences by maintaining various facilities on a very limited budget. The Board of Directors historically dedicates revenue from the solid waste franchise fees to support this division.

This year's budget allocates more property tax revenue to the Parks and Recreation Department due to the consistent reduction over several years of funds due from Administration to other departments. This budget provides for limited parks and recreation maintenance to be performed by Utilities Department personnel.

The Township has dedicated over 2,500 acres as open space, including the Ohl Grove Redwood Park and greenbelt areas. Many hiking trails, a Par Course with deteriorated exercise stations from the 1980s, a defunct baseball field, and a playground are active recreation areas. The Board of Directors supports the Recreation, Greenbelt and Conservation Committee to provide direction and recommendations on programs and activities in this division, which updated its charter in 2025.

The Willits Area Cyclists have a 2022 agreement for trails work with the Township and are considered the stewards of the district-wide trail system. They hold Trail Work Days to improve trail surfaces and adjacent areas, and re-route trails as needed. A beginner trail zone was developed as a low-impact site with several routes for less experienced and younger mountain bikers that connects to the greater trail network. They have received grants to fund rehabilitation of the Summer Lake bridge in 2026.

The Brooktrails Community Garden operates on District property near Willits Creek with raw water provided at no charge. The Community Garden supports approximately 48 individuals who plant beds inside the fenced area with fruit, flowers, vegetables and ornamentals. Their financial contributions are used by their group to supplement soil, buy and maintain tools, and to build more planter beds when demand exceeds supply.

The Brooktrails Golf Course serves both Ball and Disc Golf players. The Golf Course is being operated by a new contractor who generates quarterly revenue for the Township golf course facilities from a percentage of green fees collected.

Like last fiscal year, this division of the proposed budget is well balanced. Actual labor costs from last fiscal year are reflected in this budget. If there are increased revenues from park and community center rentals, this will help build back the bottom line in the division to end the year out of deficit. The budgeted department line items are on the following page:

Administration Department

The Administration Department is responsible for the elected five-member Board of Directors and its committees that develop policy through adoption of ordinances and resolutions and providing financial oversight for the Township and its annual budget. This department funds the General Manager and staff support for the Board of Directors, administrative support staff to all departments and personnel, the implementation of established Board policies, and managing the day-to-day Township business.

This department performs finance operations including AP/AR, utility billing, purchasing, payroll, collection functions, and the legally mandated annual audit. It also maintains official Township records including agenda packets, minutes, policies, ordinances, and resolutions. The department budget funds legal counsel for preparation of ordinances, contracts, and other legal documents, as well as providing legal support and opinions to the Board and General Manager.

Community planning and design review functions, including communicating with County of Mendocino on project approvals, and site plan design review are also the responsibility of this department.

The department operates at full capacity with 3 FTE and the General Manager. General Fund property taxes assessed by the County and other outside funding sources are received and distributed by this department.

Human resource management and payroll are the responsibility of this department. This includes: monitoring and reporting on required benefits, taxes, and employer/employee mandates; Township Policy Manual enforcement; and, the State Controller's report.

To cover costs of the administrative support provided to all departments, transfers are allocated to the Administration Department, as detailed in this table:

ADMINISTRATIVE OVERHEAD ALLOCATION BY DEPARTMENT - TRANSFER						
	<i>Employees</i>	Revenue \$	%	Admin Exp	Less (-) Admin Rev	Admin Transfers

Resolution 2026-07

A Resolution of the Board of Directors of Brooktrails Township Community Services District Adopting Fiscal Year 2026-27 Financial Plan for Services (The Budget)

WHEREAS, the Board of Directors of the Brooktrails Township Community Services District discussed the priorities for the Fiscal Year 2026-27 Financial Plan for Services, also known as the Budget, at its annual budget workshop on April 11, 2026;

WHEREAS, the Board conducted a publicly noticed Public Hearing on the Budget on June 9, 2026; and,

WHEREAS, the General Manager has provided an accompanying narrative with the Fiscal Year 2026-27 Budget to create a final Financial Plan for Services proposal for said Public Hearing.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Brooktrails Township Community Services District that the following summary represents the Fiscal Year 2026-27 Financial Plan for Services, effective July 1, 2026:

SUMMARY AND BUDGET RESOLUTION TABLE - FY 2026-27						
	Water Department	Sewer Department	Fire Department	Parks and Recreation	Administration	Totals
Revenues						
Fees	\$ 1,519,956	\$ 1,294,000		\$ 3,000	\$ 1,000	\$ 2,817,956
